Experience

Zellify

UI/UX Design Intern
January 2025 - June 2025

- I was responsible for designing pitch desks, web2app flows, and website elements.
- Collaborated with developer team to create final products.

KJReklama

Webflow Designer
April 2025 - October 2025

- Designed and developed in webflow websites for clients from Poland.
- I was responsible for every aspect of the project from initial wireframes to the final development.

Tuff

WebDesigner - Part Time
November 2025 - January 2026

- Collaborated with another designer.
- I was responsible for wireframes, and initial website designs, as well as second website concept

Freelance

Webflow Designer
January 2026 - Currently

- Owned the end-to-end design process, executing low-to-high fidelity wireframes and translating them into responsive Webflow sites.

Projects

Villa Renard

June 2026 - August 2026

- Designed and presented two distinct website concepts, translating business requirements into intuitive designs.
- Developed and launched the website in Webflow, ensuring responsive performance.
- Implemented and managed legal compliance requirements, including Privacy Policy, Cookie Policy, and cookie consent.

Zakbud

February 2026 - March 2026

- Led client meetings to define project goals, requirements, and website strategy.
- Designed responsive website layouts and user interfaces focused on usability, visual consistency, and user experience.
- Developed and launched the website in Webflow, ensuring clean implementation.

BTQ

November 2025 - January 2026

- Designed the second website concept, exploring alternative visual directions and layouts for the client.
- Produced parts of the initial visual design for the primary website concept, establishing the foundation for the final UI.

Projects

ReflexivityResearch

November 2025 - January 2026

- Managed client communication throughout the project, gathering requirements, providing updates, and incorporating feedback into development
- Developed the website in Webflow, ensuring responsive design and a polished user experience
- Implemented CMS filtering functionality in Webflow to improve content discovery and navigation
- Migrated over 500 CMS articles with the help of AI, ensuring accurate formatting, organization, and efficient content transfer

Noid bot

September 2025 - October 2025

- Developed the website in Framer, creating responsive, production-ready pages.
- Designed and implemented engaging interactions to enhance the user experience
- Collaborated with the client to refine functionality and visual details based on feedback

KJreklama

April 2025 - March 2025

- Designed the website from concept to final UI, focusing on a modern, user-centered experience
- Developed the website in Webflow with clean, maintainable structure
- Created custom animations and interactions to enhance user engagement and reinforce the brand identity
